TOUGH, powerful and economical with sheer strength depicted in every line, the Austin trucks are outstanding examples of purposeful design coupled with proved Austin dependability.

ROOMY INTERIOR

THE all-steel cab is a revelation in practical planning and provides ample accommodation for driver and two "mates." Built-in mounting steps, door locks, dust-proofing, adjustable driving seat, full-view visibility and ready-to-hand controls are details that every driver will appreciate. Provision is also made for such up-to-the-minute equipment as radio, heating with one or two units, controlled air ventilation, sound and heat insulation, and a sliding rear window.

CAB ACCESSIBILITY

OPERATORS everywhere will acclaim these fine Austin trucks for their British workmanship, and the unequalled comfort which reduces the wearying long haul and eases the roughest conditions.

6-CYLINDER ENGINE

THE smooth, thrusting power that is a Truck in operation, is derived from an engine of 4 litres capacity. It is a robust and refined engine, and is so flexible when well maintained, even under load, through its exceptional pulling power at low revs gives it the maximum haulage at minimum cost.

Responsive and willing, this engine will spring to life at the touch of the starter and will slog hard all the time there is
