THE CUTTING EDGE JUST GOT A WHOLE LOT SHARPER.

The T680 makes a statement inside and out. Its flowing lines have been precision honed through exhaustive design testing to perfect airflow efficiency. The shape is boldly aerodynamic. Inside that sleek exterior is a control center that will make the heart of professional drivers beat just a little faster.

AS BEAUTIFUL AS THIS TRUCK IS, IT'S EVEN MORE SATISFYING TO DRIVE.

While there will always be a difference between driving for pleasure and driving for a living, the T680 makes the distinction barely noticeable. Its sweeping exterior lines shelter a world-class cabin reminiscent of fine automobiles where groundbreaking technology enhances tradition. Space, elegant design, fine craftsmanship and an abundance of luxury details define the environment. Interior systems fit the driver fusing feel and sense of control with true ergonomic comfort.

The Kenworth T680 is the ultimate driver's truck. Offering a spacious, modern and elegant interior with configurable options that personalize – and heighten – the driving experience. As you can see, it's also a great place to work or just relax. With enough room to move around and stretch out in style. Offering a myriad of home-like amenities that bring an extra measure of comfort. Also serving as your office on the road. Note the rotating table that provides a stable surface – accessible from bunk and/or passenger seat – for dining and paperwork.

Open the door on a T680 and you'll notice a marked difference in how Kenworth defines comfort. The door pad, for example, presents a soft, durable, low-gloss finish and the look of fine hand craftsmanship. Robust and extraordinarily strong, the door is triple sealed against the elements and road noise.

Sturdy work/
dining table
swivels for easy
access from bunk
or passenger seat
(which rotates
180 degrees).

Spacious cupboard
above the microwave
with on-top organizer
for keys, cell phone and
other necessities; hand-
hold cubby for stable
access to upper bunk.

TV wall mount for
flat screen monitors
up to 23 inches;

REAL TIME INFORMATION FOR MAXIMUM PERFORMANCE

To drive a truck efficiently, you need real-time information – especially true today when drivers must track fuel, vehicle and safety systems performance on the go. But good information isn't the only thing the new Kenworth Driver Performance Center offers. The quality, clarity and visual interest of the presentation also means a lot when you're focused on the road. The 5 inch full color, high resolution screen is an industry first – and so much easier on the eyes. At a glance, it tells you everything you need to know about operating in the sweet spot between performance and efficiency. Truck diagnostics and performance indicators pop up to alert the driver. Trip details and multi-route comparisons allow them to maximize performance every day. Beautiful.

NAVPLUS®

Kenworth NavPlus, beautifully integrated into the dash of your T680, presents cutting-edge telematics, navigation, diagnostics and business system features at the touch of the 7-inch, high-resolution color screen. Among it's many productivity tools, NavPlus integrates wireless, hands-free phoning with seamless coverage coast to coast.

NavPlus is the first system in the industry to offer optimized routes customized to your truck parameters and your load.

NavPlus audio features AM/FM/Weather bands, Sirius satellite capability, CD player, USB port, auxiliary MP3 player hookup and Bluetooth-capable wireless audio streaming.

Virtual gauges provide real-time information on truck operation. Oil and transmission temperatures, manifold boost, present and average fuel economy, DPF status and engine torque come pre-loaded.

Pair your compatible Bluetooth phone with Bluetooth-capable NavPlus – which includes a built-in microphone and speaker – to talk hands-free.

PACCAR **MX**

Powered By Quality

PACCAR®

by **EATON®**

The PACCAR MX engine brings a new level of innovation through industry-leading quality, exceptional reliability and proven performance. For more than 50 years, PACCAR has delivered over 1 million engines globally providing innovative solutions and an unwavering commitment to superior customer service and support. The MX is designed to meet the demands of virtually any application.

The PACCAR by Eaton UltraShift® PLUS automated transmission offers true product integration with proprietary calibrations that match shift parameters precisely to the PACCAR MX engine. This seamless communication between engine and transmission makes it easier and less fatiguing for drivers to keep the truck operating at peak efficiency – maximizing performance and fuel economy.

WHEN IT COMES TO MAINTENANCE, GOOD DESIGN SAVES YOU MONEY BY SAVING TIME.

Great design makes you money by helping you stay on the road logging revenue miles. That subtle distinction will make a big difference to your operation. Another reason Kenworth is such a good decision. Durable state-of-the-art materials, reliable long-lived components with less frequent service intervals and easier-to repair innovative engineering combine to make the T680 perhaps the most productive truck you've ever owned.

EASY TO OWN, EASY TO MAINTAIN

From bumper to rear crossmember, the T680 has been specifically engineered to spend more time up and running and, when service is necessary, less time standing still.

The three-piece hood is lighter and easier, less expensive to repair. An innovative hood assist makes opening and closing almost effortless.

Fairings are made from an extremely durable, textured in-mold-color Thermoplastic Olefin that has been designed for a long life without repainting.

A curved two-piece bumper enables you to replace only the damaged section and can be ordered in an in-mold-color version that you never have to repaint.

Convenient fairing access doors make getting to the batteries or tool box a simple matter. No tools required.

The T680 has been designed for maximum visibility. The large panoramic one-piece windshield combines with Kenworth-signature DayLite® doors and a forward-sloping dash to dramatically expand the driver's field of vision.

The passenger-side look down mirror has been enlarged 87%.

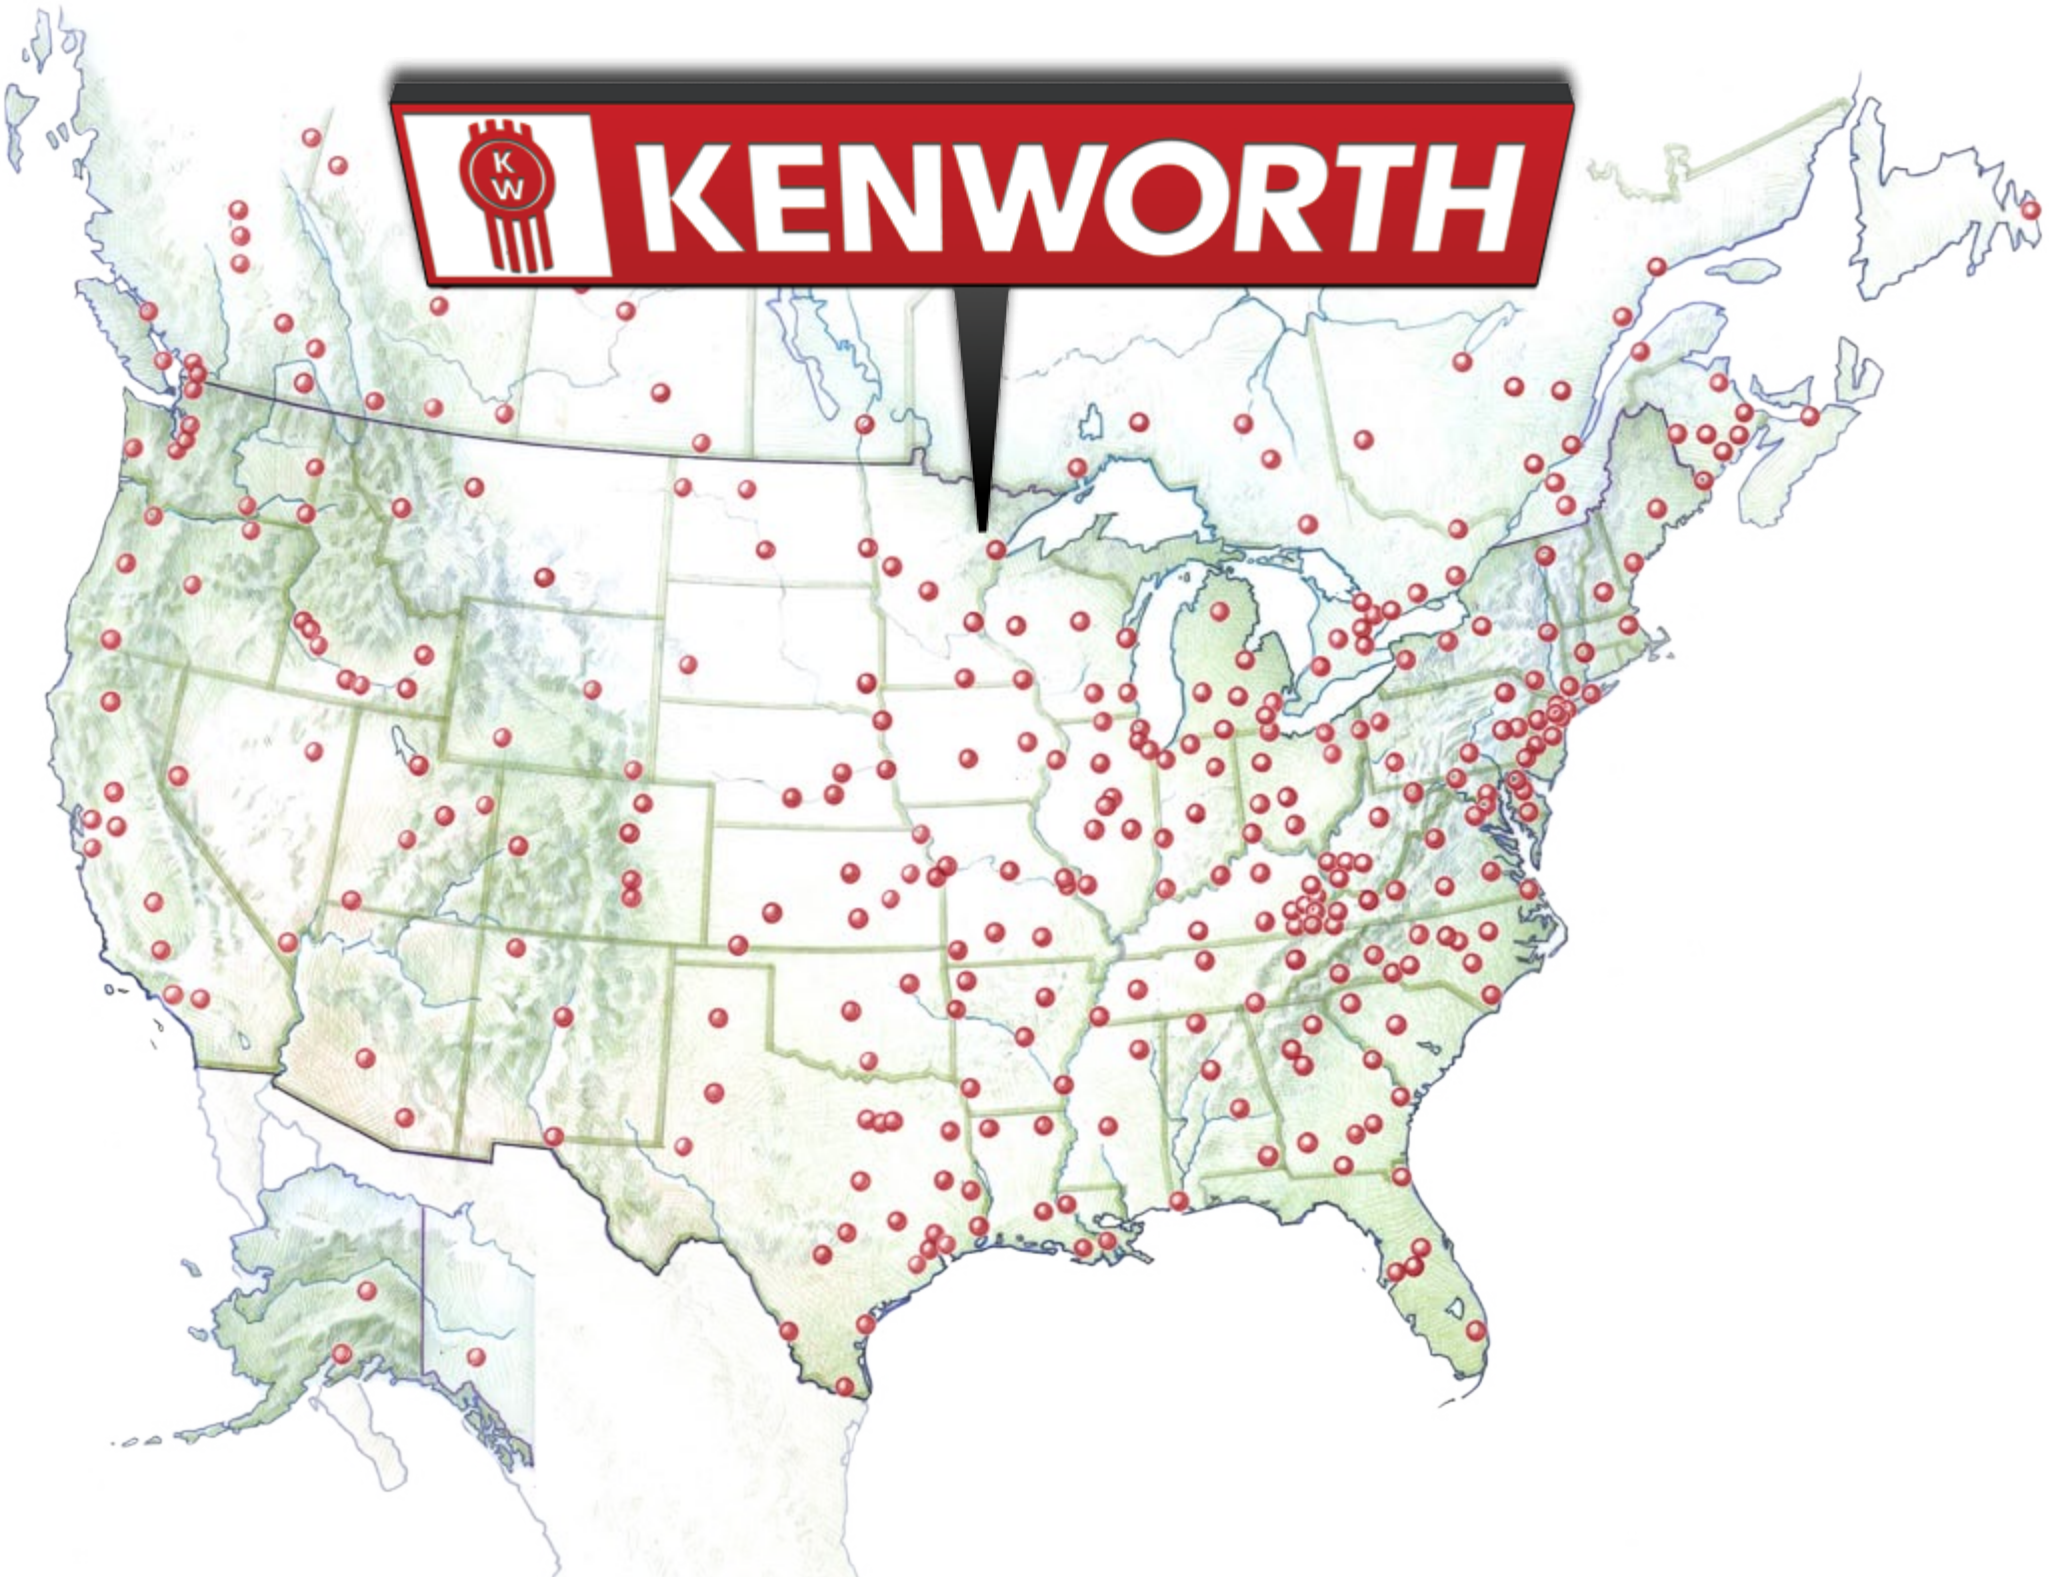

Robust aerodynamic side mirrors are cowl mounted for better stability and located further forward and lower to optimize rearward visibility. The convex portion is 37% larger than Kenworth's standard convex mirror design.

Strategically mounted on the hood, the T680's aero convex mirrors provide greater rear visibility.

KENWORTH

T680

**IN A 24/7 WORLD WHERE CUSTOMERS RIGHTFULLY EXPECT TO HAVE IT ALL,
YOU NEED YOUR NETWORK MORE THAN EVER BEFORE.**

We're in this together. From the moment you put your new T680 to work, Kenworth and its extensive dealer network – with 320 locations throughout North America – are standing by. You will never be far away from expert parts and service support. And you can count on 24/7 roadside assistance (1-800-KW-ASSIST) for as long as you own your Kenworth. Trust your Kenworth network to be there, to be smart, to have your best interests at heart and to be quick about it, whatever it is.
