

DEFINING TOMORROW

K200

● K200

Introducing the new K200. With its stylish looks, greatly enhanced driver environment, improved cooling package, and increased safety, the best just got even better. The Kenworth K200 cab-over is the perfect choice when it comes to maximising your bottom line for B-Double applications. The K200 provides operators with exceptional power and flexibility, so you can haul bigger loads with greater ease. Suited to most Australian applications, the K200 is ideal for up to 26m B-Double and B-Triple combinations.

● ADR 80/03 - THE NEW AUSTRALIAN EMISSIONS STANDARD

For the K200 the emission solution employed to meet ADR 80/03 in the 2011 model range powered by Cummins ISX and Signature engines is cooled Exhaust Gas Recirculation (EGR).

Kenworth is introducing a Cummins Diesel Particulate Filter as part of the engine package. The Cummins Diesel Particulate Filter, which replaces the existing vehicle muffler, reduces particulate emissions by 90% from ADR80/02 levels and is designed to last the life of the engine.

Kenworth's application engineering process has delivered an optimised solution that integrates integrate EGR seamlessly across the high horsepower engine options. So as well as being highly efficient and low maintenance the EGR emission solution has impact on payload. Kenworth customers get the emission compliance they need with the proven performance and reliability of engines they know and trust - all with the back up of our renowned local design and manufacturing capability and Australia wide support network.

● EBSS - ELECTRONIC BRAKE SAFETY SYSTEM

At Kenworth, safety has always been a paramount consideration, and we continue to invest heavily in developing a safer working environment for road transport operators and other road users. All 2011 new model Kenworth's will be available with the latest Kenworth EBSS Safety Package. EBSS incorporates a variety of safety features including ABS, Drag Torque Control, Traction Control and ESP.

Kenworth EBSS has been designed to provide a class leading and reliable system for Australasia's unique road conditions and applications, and deliver better peace of mind for all road users. To learn more about these safety systems visit www.kenworth.com.au
